About S. P. Mandali's

Founded in 1888, Shikshana Prasaraka Mandali is one of the pioneers of educational societies in state of Maharashtra. The institution since its inception is determined to building an environment that encourages the spirit of free thinking, thus imparting quality education to more than 45,000 students.

All the institutions of S. P. Mandali are known for their academic excellence and attract students from all parts of India. S. P. Mandali owns 43 educational institutions in the states of Maharashtra and Karnataka including pre-primary, primary, secondary and higher secondary schools, colleges for Arts, Science and Commerce, a school for hearing impaired children, a therapeutic drug monitoring laboratory, an institute carrying out research in Ayurvedic and Herbal Medicine and Management Institutes. Having a diversified and dynamic module of operation, each institution at S. P. Mandali is known for its academic excellence and calls for students from across the nation.

About WeSchool

WeSchool is one of India's leading management education institutes with fervor to contribute socially responsible business leaders through management education. National Institutional Ranking Framework (NIRF) list of 2022 ranks WeSchool, Mumbai in Top 68 B Schools.

The institute's vision to nurture thought leaders and practitioners through inventive education is aligned to the thought leadership from Shikshana Prasaraka Mandali Pune, an educational trust legacy that manages 43 equally eminent educational institutes in Maharashtra.

The institute's thought process stems from design-thinking approach, thus bridging academia with corporate leaders for an industry relevant management education.

Recognitions and Rankings

- 1** WeSchool ranked 1st in Private affiliated colleges and 19th in private B-Schools nationally, 5th in west zone and 1st in Mumbai by Outlook
- 2** WeSchool ranked 26th nationally and 11th among the private institutions, by "The Week"
- 3** Honoured with 5 stars for the IIC 2.0 by the Ministry of Education

From the Group Director's Desk

India has been a major seat of learning for thousands of years. The country was home to both Takshashila - the first university in the world, and to the inventor of the digit 0 - Aryabhata.

Lately, India has undergone a paradigm shift owing to its competitive stand in the world. The Indian economy is on a robust growth trajectory and boasts of a stable 8 plus annual growth rate, rising foreign exchange reserves and booming capital markets among others.

Higher education too in India has been a continuous provider of innovation, creativity and leadership support to the global industry. Some of the world's leading companies are being headed by-products of Indian education system such as Satya Nadella, CEO, Microsoft, Sundar Pichai, CEO, Google Inc., Ajaypal Singh Banga, President and CEO, MasterCard, Rajeev Suri, CEO of Nokia, Indira Nooyi, CEO of Pepsi Co. to name a few

We are fortunate to have the representation of the voice of key stakeholders such as policymakers, diplomats, experts, industry professionals, members of the academia, and our esteemed alumni in the industry, among others for the cause of education.

There has never been a better time for management students to start their careers in India. With the right skills and knowledge, you can take advantage of the many opportunities available and help drive the country's continued economic growth.

The vision of the NEP aims at building a global best education system rooted in Indian ethos, and aligned with the principles, thereby transforming India into a global knowledge superpower.

The Indian economy is growing at a robust pace and is poised to become one of the largest economies in the world. This growth has created a huge demand for skilled and knowledgeable management professionals who can help drive the country's continued economic development.

As a leading B-school, we have a crucial role to play in shaping the future of education and in preparing our students to become leaders in their fields. We are committed to staying at the forefront of these changes and to providing our students with the skills and knowledge they need to succeed in a rapidly changing world.

Over the course of the program, your fellow students become trusted colleagues and in many cases, lifelong friends. I invite you to embark on your path to academic and professional excellence with us at our sprawling campuses in Mumbai and Bengaluru which will truly enhance your intellectual and personal growth. Keeping design and innovation its core, WeSchool endeavors to provide newer avenues to students towards achieving excellence in all sphere of life and nurture them to become Global Citizen Leaders.

Prof. Dr. Uday Salunkhe
Group Director, WeSchool

Vision

To nurture thought leaders and practitioners through inventive education.

Mission

- Focus on inventive education by offering practical, innovative and technology driven programs.
- Provide managerial talent with risk managing ability, passion for learning and creative thinking and values in rapidly evolving economic and social environment.
- Contribute significantly to Indian corporate world by preparing Management graduates with global mindset.
- Build intellectual capital through faculty development, research, consultancy and publication.
- Develop alumni network of mutual benefit and keep alumni update through continuous learning and meeting.

Core Values

- Passion
- Breakthrough thinking and breakthrough execution
- Result oriented process driven work ethics
- We link and care

Program Vision

"Creating corporate managers with rural insights"

This vision of the program emphasizes on the increasing role played by rural sector in the Indian economy, leading the way for innovation, entrepreneurship and growth. As businesses see the value of rural India in creating and sustaining growth, skilled managers are needed to drive the business in distant, untested markets. These managers require the skills, knowledge and attitude to work for such organization, creating value for businesses as well as rural communities. The Rural Management Program at WeSchool synergizes this unmet need of the market.

Program Mission

The Program is dedicated to enriching students' lives by providing modern education synergized with rural sector knowledge and practical experience, with added focus on developing a broader outlook and leadership qualities by focusing on:

- **Contemporary Education:** To develop a curriculum in tune with emerging trends in industry and in Rural sector.
- **Broader Outlook:** To facilitate the students' understanding of the Rural enterprises in the broader context of Economic Policy.
- **Practical Exposure:** To enable the students to engage with Rural Businesses by imparting specialized classroom-training backed by practical, field-level experience.
- **Leadership Qualities:** To create / Nurture future managers with leadership skills, innovation skills and ability of application of technology in businesses.

Why Rural Management?

As urban markets are becoming saturated, rural markets hold the potential for future growth. There is a shortage of trained business managers who understand the pulse of the rural sector and can provide businesses with insights into this emerging market. This has resulted in a sustained demand in the corporate sector for Rural Management specialists. The sunrise sector, touted as the growth engine of the future, is expected to boom and employ the majority of the world's workforce in the coming years.

What is Rural Management?

Rural management is the application of management principles to rural-facing businesses in order to create sustainable wealth in an inclusive and empowering way. It focuses on the holistic integration of people and businesses with value creation for the bottom of the pyramid masses.

Program Overview

Professionally trained and skilled Managers, with Rural perspective, are essential to create and manage businesses, aiming for long term sustained growth, for rural-facing companies, cooperatives, development sector organisations, and government agencies etc and thus become potential growth catalysts for India, Rural India in particular.

WeSchool's PGDM-Rural Management program aims to develop a young cadre of market ready Rural Managers for these challenging opportunities.

The Rural Management program graduates have wider career scope across industry verticals due to in-built features of the program which develop in them broader adaptability, holistic view, higher tenacity, empathy, grassroots level knowledge of rural India and expanding rural markets across the country.

Since the start of the Rural Management program in 2012 at WeSchool, it has been well received by students and recruiters, as seen from students' preference and recruitment trends. Contrary to popular belief, the career prospects in the Rural market space span way beyond agri-business and spread across various industries and sectors such as BFSI & Fintech Companies, FMCG & consumer durables, IT & ITES, Telecom, Manufacturing, Energy, Infrastructure, E-Commerce & other Digital domain companies to name a few.

Program Educational Objectives

The PGDM-Rural Management program curriculum is designed to achieve the following Program Educational Objectives :

- The program will enable students to work effectively in management roles in rural businesses / industry verticals in existing and emerging markets in finance, sales, marketing, and operations.
- The program will provide ability to develop empathy, tenacity, multitasking skills, and ability to communicate with rural communities as well as business functionaries in rural focused companies
- The program will enable students to actively contribute to value creation that requires cutting edge knowledge of the sector and effective use of empowering technologies for rural communities.

FINANCE
OPERATIONS

Program USP

Innovative and Transformative Pedagogy

The Rural Management program uses an innovative approach to learning and experiencing the grassroots through rural field studies, study tours, industry visits, international exposure through guest faculty and site visits and extensive interaction with the industry.

The transformative pedagogy includes lectures, on-field rural projects, industry visits and research experience through rural internships and provides premium knowledge of Rural Management along with the skills of general management which is delivered by highly acclaimed academicians and renowned Industry experts from top listed companies.

The “**Agri-lab**” at WeSchool is meant to ensure effective learning of the agriculture-based subjects through Immersion based learning by doing.

Extensive Experiential Learning

The major distinguishing feature of this 2 years Program is an embedded rural internship of 4 months, which provides a dedicated practical exposure to the needs and aspirations, lifestyles, culture and beliefs of the people residing in the smaller towns and villages of India. The uniqueness of the program is its focus on value creation through development of sustainable business models in the rural space.

Exploring the Grassroots

The rural immersion learning based course designed to address the need to make future business managers and policy makers sensitized towards the people at the grassroots. It provides hands on experience of the 'Bottom of the Pyramid' people, understanding the consumer needs and the market potential. It gives them an opportunity to experience the ecosystem, the economy, the social structure and the life at grassroots level in an Indian village.

Rural Round Table Conference-'AuRuM'

'AuRuM' - A rural theme based roundtable conference in partnership with the industry is organized annually by the core team of Rural Management at WeSchool. It provides a platform for interaction between industry and Weschool in the rural space for knowledge sharing and ongoing relationships for mutual benefit. On a neutral platform, the industry shares its wisdom and innovative ideas with other stakeholders.

Rural Clubs

Rural Management students at Weschool imbibe the rural insights through multiple initiatives: Gram Samachaar-Students' Newsletter, Samachaar-Movie Club, Talking Heads, Debate Club, Book club which together forms a vibrant industry-academia interface for learning.

The **Gram Samachaar-Students' Newsletter** was first launched in 2018 by the PGDM-Rural Management (Emerging Economies) students of Batch 2017-19. It is a monthly magazine; of the students, for the students, and by the students. It embodies the philosophy of WeSchool's Rural Management program: empathetic, tenacious, and persuasive transformational leadership.

The **Sanchaar-Media club** assists students in giving them practical and industry exposure in a variety of program verticals through documentaries, brief pertinent films, expert talks, and entrepreneurial talks. After seeing the videos, there is conversation focused on what was learned, what was taken away, and what was observed. Additionally, the members also post a variety of events and activities organized by the rural team and students on the Rural LinkedIn profile.

The **Talking Heads club**, a series of guest lectures has been launched by PGDM-Rural Management (Emerging Economies), with the goal of educating the students to meet the issues they would confront in the workplace. These special input sessions prepare our students so that they are not just theoretically educated but also practically equipped, given the rapid rate of our progress and the gradual replacement of our daily lives by technologies like drones and driverless cars. Thus, it helps our students become international leaders and professionals by adopting global practices.

Book clubs foster a love of reading in a supportive setting. It helps in developing reading habits with more deep understanding and with diverse perspectives. This dynamic builds and reinforce relationships. It also makes a student more comfortable and confident in professional discussions.

Debate club helps to enhance the sectoral knowledge of students on contemporary issues. To strengthen critical thinking ability in students. To develop effective communication skills in students. Students will be able to generate coherent logical statements on a topic or issue, using secondary research. Students will be able to compare ideas, concepts, investigate and find evidence to generate and support logical statements.

Global Citizen Leader Program (GCL)

GCL program , a unique field project based initiative for integrated learning in the curriculum, provides students with inputs on leadership and innovation through design thinking. It strikes a balance between the creative problem-solving skills of an innovator and the soft skills of a leader. Students get well equipped to lead others in developing solutions to problems and issues which have significance to business and the society at large. Most of the projects are based upon 'Challenge statements' sourced from the corporate. Some of such notable projects are:

- How may we develop innovative commercial agribusiness model for hydroponic crops, with focussed market analysis for Domestic and Export markets.
- How may we prepare a sustainable business plan for a seed company to face the impact of climate change issues on their business?
- Impact on rural consumer behaviour due to changing technology and online marketing in agricultural irrigation combined with solar power
- Developing a prototype of Urban Mushroom farming for Mumbai

Program Structure

PGDM (Rural Management) program provides students core management curriculum across all domains in 1st year along with immersive courses on rural ecosystems inside the classroom and on field.

The rural courses are foundational, followed by increasing levels of learning as the students progresses through the year 1 with focus on all main verticals in rural business environment. Year 2 includes a spectrum of electives that allow students to choose from within a bucket of domain related courses of their choice along with Rural focused courses that give deeper knowledge of a rural facing business vertical.

On successful completion of the PGDM-Rural Management (Emerging Economies) program, student will be a Corporate Manager with leadership qualities and innovative mindset, able to think out-of-the-box and find ingenious solutions to the problems faced by the rural sector, based on deep insights in rural emerging markets.

Alumni Testimonials

“

I completed summer internship at Amul and prepared “Pan-India Marketing Plan for Amul's Cattle Feed”. As the sales team lead, I carried out awareness and activation programs in the villages of Bhavnagar District of Gujarat which resulted in increase in sales by 170%. This gave me the confidence and enhanced my skill set resulting into my placement in ICICI bank. After a successful stint there I am currently working as Relationship Manager at Yes Bank, wherein everyday interact with decision makers from various industries. This is just the beginning.

- **Akshay Sadalge (PGDM-Rural Management 2014 - 16, WeSchool Mumbai)**
Relationship Leader, Yes Bank

”

“

My summer internship at Pidilite taught me different perspective about rural sector while observing the rural consumer buying behaviour in UP and Bihar. My learning at Agri-Lab in campus was a hands-on experience of agriculture. It is now helping me immensely in my work at UPL-Advanta Seeds.

- **Nitish Wange (PGDM-Rural Management 2016 - 18, WeSchool Mumbai)**
Territory Sales Manager, Advanta Seeds, UPL Ltd.

”

“

During "Exploring the Grassroots" I learnt, how to empathize with the people and understand their problems, easily adapt to the environment, developed agility which are very important for today's manager along with other basic skills. These skills are helping me immensely in my current job while I interact with different stakeholders – dealers, retailers and farmers.

- **Pranjalee Choudhari (PGDM-Rural Management 2017 - 19, WeSchool Mumbai)**
Business Analyst – CRM, UPL Ltd.

Program Summary

The growth of rural India signifies Brand India. The future of business is the vast hinterland of countryside. The rural managers are innovators who strategically lead and sustain business in this hinterland, be it from agricultural companies to auto production plants to FMCG etc. The curriculum takes into account the practical rural market situation and management perspective. The program seeks to groom students into a person who is empathetic, has leadership qualities & managerial capabilities and has an innovative mindset.
